DocPoint Solutions and Clearview Software Team Up to Help Companies Benefit from Microsoft SharePoint

Fulton, Md. and Auburn Hills, Mich. – June 18, 2008 – DocPoint Solutions, a new subsidiary of Quality Associates, Inc. focused on providing Microsoft® SharePoint® to organizations that are looking to expand employee collaboration and increase the exchange of information, announced it has entered into an agreement with Clearview Software, a provider of enterprise content management (ECM) solutions for Microsoft SharePoint. Based in Auburn Hills, Michigan, Clearview Software is a Microsoft Gold Certified Partner and provides ECM software specifically designed for use with SharePoint.

Under the terms of the deal, DocPoint Solutions becomes the newest member of the Clearview Authorized Partner Network. The agreement gives DocPoint Solutions the ability to sell, implement and support the Clearview ECM Suite, a proven software platform used by organizations across the U.S. to maximize the full value and potential of SharePoint.

DocPoint Solutions provides a full range of consultative services, support and software for enterprise content management, with a specific focus on providing Microsoft SharePoint to organizations that are looking to expand employee collaboration efforts and increase information exchange across the enterprise. The company primarily provides its services to government agencies, nonprofits and corporations.

DocPoint Solutions Vice President, Bob Dickerson, said, "In looking for a software partner, we specifically selected Clearview Software because of its focus on and expertise with the Microsoft SharePoint platform. With more than 85 million SharePoint licenses sold in the U.S., the software has a wide base of users. Yet, surprisingly, most organizations have yet to scratch the surface

when it comes to effectively implementing and using the software to help workers collaborate on projects, review needed information and get more work performed in less time. The organizations that are coming to us for assistance realize the inherent value in SharePoint, and want to maximize the use and effectiveness of the software in their daily operations.”

"We are excited to add DocPoint Solutions to the Clearview Authorized Partner Network," said Steve Leichtman, Senior Vice President of Sales and Services for Clearview Software. "One of our successful business approaches is to partner with companies that hold deep industry experience, such as DocPoint Solutions, which enabled us to become established within industries that include banking, manufacturing, professional associations, and higher education. These organizations share the goal of improving employee collaboration and saving time and effort.”

About Clearview Software

Clearview Software is the premier innovator of contemporary Enterprise Content Management (ECM) solutions that help organizations in all lines of business improve the control, security, and management of information assets; enhance operational process efficiency; and strengthen overall regulatory and compliance initiatives. Pioneers of Microsoft® SharePoint® based ECM technology, Clearview extends and completes the core ECM capabilities provided by SharePoint with enterprise-class document imaging and high-value content services to deliver an unprecedented ECM suite built exclusively for the Microsoft technology environment.
